**DETAILED ACTION**

1. This Office action is in response to Applicant's remarks filed April 9, 2008.

Currently, claims 1-20 remain pending in the application.

2. The text of those sections of Title 35 U.S. Code not included in this action can be found in the prior Office action, Paper No. 20071210.

3. The rejection of claims 1-20 under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Roth et al, U.S. Patent No. 4,834,903, is maintained for the reasons of record.

***Response to Arguments***

4. Applicant's arguments filed April 9, 2008 have been fully considered but they are not persuasive.

Applicant argues that Roth et al, U.S. Patent No. 4,834,903, does not teach or suggest in general alkyl and/or alkenyl polyglycosides that are in the form of a water containing preparation with a water content of more than 5% by weight. However, the examiner respectfully disagrees. Specifically, the examiner asserts that Roth et al clearly discloses that the oxyalkylated polyglycosides are present in liquid compositions that contain 35-65% by weight of water (see col. 7, lines 51-64), as required in the instant claims. Furthermore, the examiner asserts that page 2, lines 17-22, of the

instant specification recites that alkyl polyglycosides are commercially available as water containing preparations that contain at least 10% by water. Therefore, it is the examiner's position that the alkyl polyglycosides used in Roth et al would inherently contain at least 10% by water, since applicant's specification discloses that alkyl polyglycosides are commercially available as water containing preparations that contain at least 10% by water. It is further noted by the examiner that applicant's claims, as presently written, do not require a water content of greater than 5% during the reaction of the alkylene oxides with the alkyl and/or alkenyl polyglycosides

***Conclusion***

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
